

With the holidays approaching, it is more important than ever to get tested for COVID-19 to Stop the Spread

Get Tested

Getting a test is one of the best ways to protect your family, friends and loved ones. Otherwise, you might give them the virus without knowing it.

Know the Signs

Many people don't know they have COVID-19 until they get sick. Getting a test is one of the best ways to protect yourself and your loved ones.

Avoid Gatherings

Family gatherings are a key contributor to the rise of COVID-19; even if you are only gathering with your family, you should get tested.

Do Your Part

Doctors and nurses are putting their lives at risk ... and they need our help.

Key facts: How to get tested for COVID-19

We are standing up testing sites at locations throughout the state to make testing easy and convenient.

Many sites offer “walk-in” services, or you can schedule an appointment.

Testing is free and no insurance is required through the end of the year.

No official ID or documentation is required — only your name and contact info (e.g., phone, email) is needed, so results of the test can be shared.

Go to www.gogettested.com/kansas to find your local testing site.
