

Critical Infrastructure

Critical infrastructure sector employees who have traveled to these destinations should contact their local health department regarding instructions for application of these quarantine orders while working. Critical infrastructure employees, such as public health, law enforcement, food supply, etc., need to have the staffing resources to continue serving Kansans so the local health department may allow a modified quarantine. Please note the only exemption for these quarantine mandates for critical infrastructure sector employees is work – they are not to go any other locations outside of work. Find resources in the [Businesses and Employers toolkit](#).
