

Kansas County COVID Rankings

October 27th, 2021

Kansas County COVID Rankings

Goal of Rankings: Help county commissioners and local leaders stop the spread of COVID-19 in their communities

Multiple factors impact COVID-19 vaccination and testing rates in Kansas communities. State, county, and local leaders must work together to stop the spread of the dangerous delta variant and keep Kansas businesses and schools open. This data – to be updated 3x/ week – will empower local leaders to take timely actions to keep their communities safe.

Counties ranked on each of three COVID measures:

- Vaccination rate¹
- Average number of COVID cases²
- Average number of COVID tests given³

Rankings from each measure are summed for total score, which is converted into a single ranking:

- Lowest risk county has #1 ranking (*highest vaccination rate & avg. tests; lowest avg. cases*)
- Highest risk county has #105 ranking (*lowest vaccination rate & avg. tests; highest avg. cases*)
- When the point score is the same, counties are assigned the same ranking

1. % of eligible population (12+) fully vaccinated; defined as people who have received the second dose in a two-dose COVID-19 vaccine series or one dose of the single-shot J&J/Janssen (CDC)

2. 7-day average daily cases / 100k people (KDHE)

3. 7-day average daily tests / 100k people (KDHE)

Note: County overall rank may be higher than each individual metric rankings because it is based on a sum of the rankings, not an average of the individual metric rankings Source: CDC, KDHE

Kansas County COVID Rankings (I/V)

County	Vaccination rate ¹		COVID-19 Cases ²		COVID-19 Tests ³		Rank
	Rate	Ranking	Cases per 100k	Ranking	Tests per 100k	Ranking	
Allen	47%	76	38	54	318	75	88
Anderson	46%	79	20	22	218	98	80
Atchison	47%	74	33	49	268	88	91
Barber	51%	50	13	4	242	92	45
Barton	46%	83	45	65	432	44	73
Bourbon	40%	99	29	44	149	104	103
Brown	65%	5	51	72	847	11	9
Butler	50%	60	38	52	521	26	39
Chase	47%	73	65	83	313	78	100
Chautauqua	43%	92	48	69	281	84	102
Cherokee	48%	67	24	35	297	82	70
Cheyenne	47%	71	22	24	151	103	78
Clark	51%	52	29	42	487	35	32
Clay	61%	9	34	50	398	51	19
Cloud	51%	51	101	99	850	10	56
Coffey	55%	26	47	68	393	53	46
Comanche	51%	44	160	105	1403	3	50
Cowley	50%	59	22	29	608	20	17
Crawford	50%	57	15	7	201	100	58
Decatur	42%	95	66	84	232	95	105
Dickinson	56%	23	40	59	410	49	33

1. % of eligible population (12+) fully vaccinated; defined as people who have received the second dose in a two-dose COVID-19 vaccine series or one dose of the single-shot J&J/Janssen (CDC)
2. 7-day average daily cases / 100k people (KDHE)
3. 7-day average daily tests / 100k people (KDHE)

Points from each measure are summed for total score, which is converted into a ranking, the lowest risk has #1 ranking (highest vaccination rates & avg. tests; lowest avg. cases), the highest risk has #105 ranking (Lowest vaccination rate & avg. tests; highest avg. cases), when the point score is the same, counties are assigned the same ranking; county overall rank may be higher than each individual metric rankings because it is based on a sum of the rankings, not an average of the individual metric rankings

Kansas County COVID Rankings (II/V)

County	Vaccination rate ¹		COVID-19 Cases ²		COVID-19 Tests ³		Rank
	Rate	Ranking	Cases per 100k	Ranking	Tests per 100k	Ranking	
Doniphan	50%	55	24	36	267	89	66
